The Eclipse in a different light

Questions to ask about the Eclipse:

- How much will the local temperature drop?**
- What part of the Sun can you see?**
- What does an eclipse look like from space?**
- Where is the moon in relation to the Sun and Earth?**
- When will a total solar eclipse occur in my home town?**

Find the answers, facts and more at the Sun-Earth Day website...Download lesson plans and make-and-take activities. Register on line to receive free educational materials. Track a Solar Storm: observe the Sun's interplay with the Earth. View a web cast from Turkey. Watch a NASA Connect TV program.
